

G&G TECH Model: G7000B TIG Algon Manual Welding Machine Base Set (without a TIG inverter welding unit)

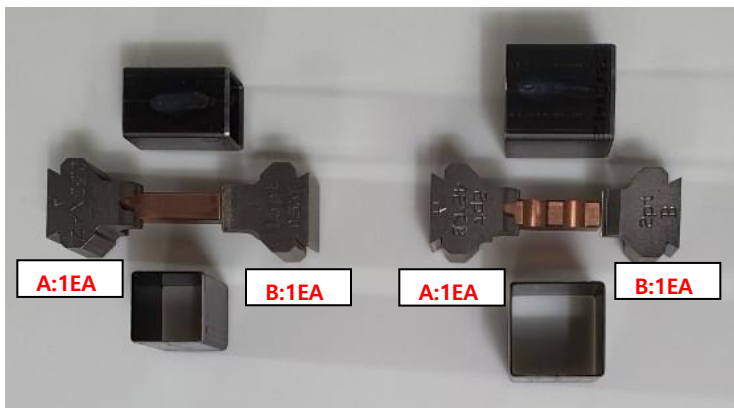

Algon gas tank is not included

Space for TIG Inverter Welder

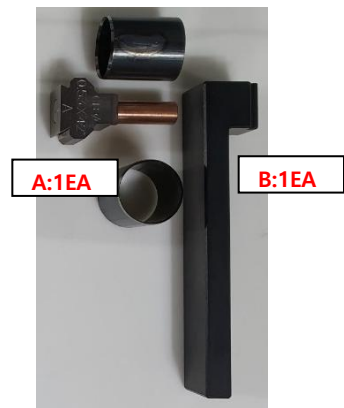

G7000B Welding Jig Base Set (6-pieces 3-sets)

1. Jig: height 10mm x thickness 2pt(0.7t) x angle 42°(CB)
(A+B = 1SET)

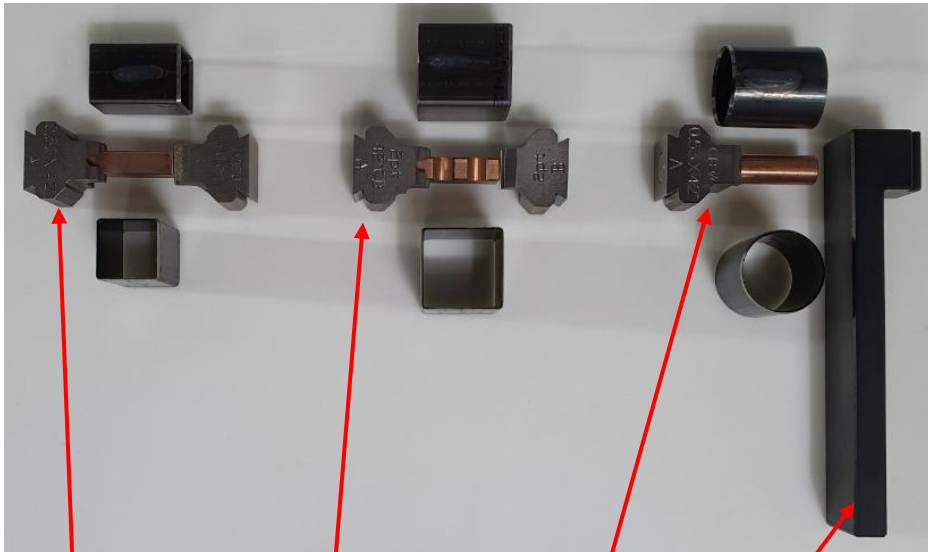

2. Jig: 15mm x 3pt(1.05t) x 52°(DB)
(A+B = 1SET)

3. Round Jig: (10Ø and larger) x 2pt(0.7t) x 42°(CB)
(A+B = 1SET, common B jig)

G7000B Welding Jig Base Set can be customized to the user's specifications.
(e.g., can change 10mm x 2pt(0.7t) x 42°(CB) set to 10mm x 4pt(1.5t) x 52°(DB) set)

G7000B Welding Jig Base Set (6-pieces 3-sets)

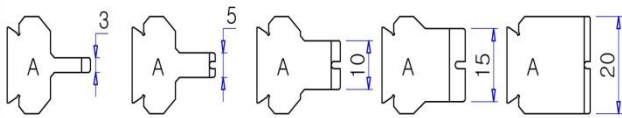

Jig: A/B
(2~10mm)

Jig: A/B
(12~20mm)

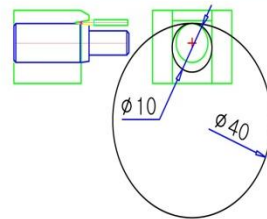

Round Jig: A
(10 ϕ ~ 100 ϕ)

Round Jig: B
common

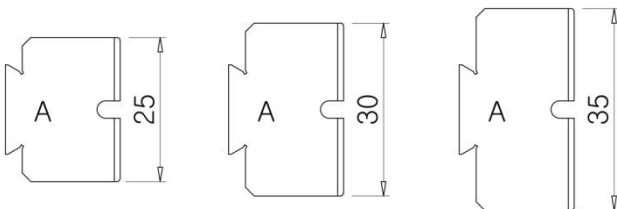

You need custom matching jigs for your steel rule types (height, thickness, angle & bevel) to hold the rule firmly fixed without damaging the edges.

Height of up to 20mm is at same price
Taller than 20mm is at higher price

Round Jigs can be used for any size round shapes and you only need to match the thickness of the rule. Can be used for 10 ϕ and larger.

e.g., heights of
02~20mm
21~25mm
26~30mm
31~40mm, etc.
can be custom made
