

Rule bender 34-0

Maximum capacity

Height: 23.80 mm

Thickness: 2pt

Rule bender 34-0

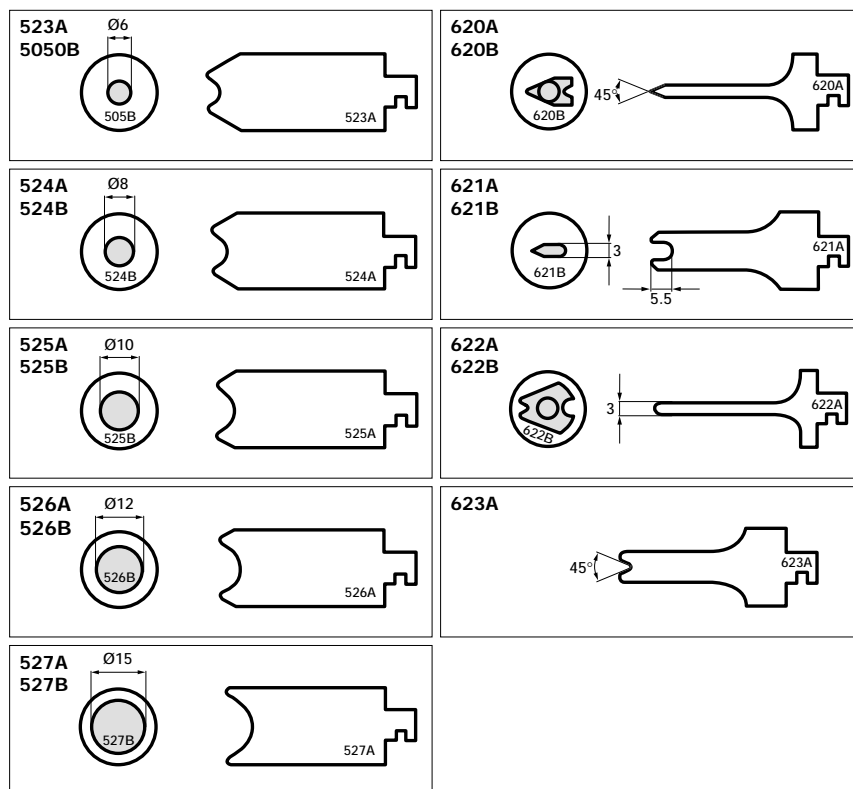

In hand-operated Rule bender 34-0, tight and complicated shapes can be bent in one piece. It has a quick-grip device for rapid tool change in the multiple bending of small, closed parts. As standard the machine is supplied with a set of tools including angle and radius bending dies for direct bending of given angles and radii.

The maximum capacity of this tool set is 23,80 mm high x 2 pt thick medium hard steel rules.

Dimensions

Height	280 mm
Length	1040 mm
Width	250 mm
Weight	28 kg

Standard bending tools

Extra accessories

Standard or digital calipers, side table and tools for 3 pt thick medium hard steel rules.

Maintenance

The tools need correct support of the device-little over pressure gives correct bending angle. Lubricate weekly with thin oil.
